Proposed template for partners to report project activities

The following template is proposed to report project activities with students

Project ICAROS	<i>[SE-LÅ-2017-03-02] Please follow this format:</i>	
Report Code	<i>LL= 2 letter country code, PP = partner acronym, date</i>	
Title	<i>Re-install of PC for drone-simulator</i>	
Start/End Date	<i>Started 16/2-2017 – Ended 16/2-2017</i>	
Coordinator name and email	<i>Juan Bergdahl juan.bergdahl@vasteras.se</i>	
Name of teachers	<i>Lars Åström, Sten-Hakan Andersson & Peter Werner</i>	
Number and age of students	<i>2 students, 18 y.o.</i>	
Description of activities	<p><i>Write one or two paragraphs describing in brief the activities with the students. What they planned, what they did. Mention any difficulties or challenges:</i></p> <p><i>Preparing the Turnigy radio TX to work with flight simulator software and how to calibrate the touch screen.</i></p>	
Learning outcomes	<p><i>Give a short description of what students learned and achieved:</i></p> <p><i>Most participants encounter problems while using the radio with the chosen simulator software – the students found a solution for that issue and created a short tutorial video and got that uploaded on our YouTube-channel to help the rest of the teams.</i></p>	
Photos or other relevant material	 <p><i>Picture 1: Power on the radio</i></p>	

Picture 2: Throttle warning

Picture 3: Throttle down as requested

Picture 4: Ready for next step

Picture 5: Finding "The hidden" touch-pen.

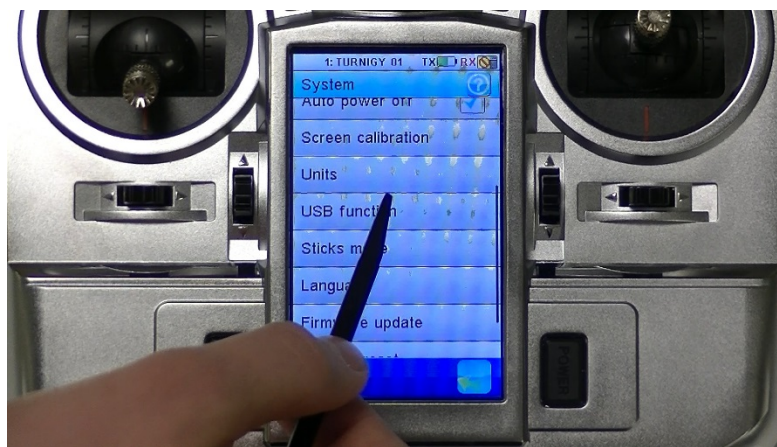

Picture 6: System settings

Picture 7: Screen calibration

Picture 8: Touch the crosses on the screen.

Picture 9: Chose USB-mode

Picture 10: The default USB-mode is "None" - therefore the radio won't appear on your computer while connecting it to the USB. You need to find this setting in the menu and set it in "TGY-i10 emulator" mode.
